ASSISTING STUDENTS IN DISTRESS
SEE SOMETHING. SAY SOMETHING. DO SOMETHING.

SEE SOMETHING
UMD faculty, staff, and graduate assistants are in a unique position to recognize and demonstrate compassion for UMD students in distress.

Students may feel alone, isolated, and even hopeless when faced with challenges in their academic and personal lives. These feelings can disrupt academic performance and lead to dysfunctional coping and other serious consequences.

You may be the first person to SEE SOMETHING distressing in a student if you have frequent and prolonged contact with them. As members of the UMD community, it is important that we act with compassion.

DO SOMETHING
Sometimes students cannot, or will not, turn to family or friends. DO SOMETHING. Your expression of concern may be a critical factor in saving a student’s academic career or even their life.

This folder can help you recognize symptoms of student distress and identify appropriate referrals to campus resources.

SAY SOMETHING
Students exhibiting troubling behaviors in your presence are likely having difficulties in other areas of their lives, including the classroom, with roommates, with family, and even in social settings.

Trust your instincts and SAY SOMETHING if a student leaves you feeling worried, alarmed, or threatened.

WHAT ABOUT PRIVACY?
The Family Educational Rights and Privacy Act (FERPA) permits communication about a student of concern in connection with a health and safety emergency. Observations of a student’s conduct or statements made by a student are not protected by FERPA.

Appropriate consideration for student privacy should be given before information is shared with people other than those suggested in this Folder, and questions about when such disclosure is appropriate can be answered by University Office of General Counsel. Faculty and graduate assistants are Responsible University Employees (see OCRSM.UMD.EDU).
